# Pedalite Toe Clips

**Pedalite Toe Clips are super strong bicycle pedal toe clips that are able to be very simply retro-fitted to Pedalite Battery Free 360 Degree Visibility Pedal Lights.**

When cycling it is vitally importance to being seen from the side by other road users and to ensure you have lighting on a bicycle even during daylight hours for when you ride through a shadow or a cloud comes overhead.

Tens of thousands of cyclists now use Pedalite battery free 360 degree visibility pedal lights that help cyclists create their own virtual cycle lane as motorists naturally give cyclists with Pedalite pedals a wider berth and distance, increasing their safety.

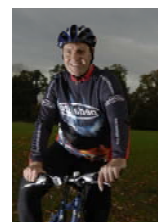

As soon as cyclists start pedalling the Pedalite pedal lights uniquely harvest and store a small amount of energy from the bicycle so the lights continue to flash when the cyclist is freewheeling or has stopped at a road junction.

Pedalite toe clips now enhance the Pedalite battery free 360 degree visibility pedal lights as an optional accessory.

## ***MAKES CYCLING SAFER WORLDWIDE***
