Pedalite - A Brilliant Idea!

Pedalite International has had an incredibly successful period in the run up to the launch of their new model 360 degree pedal lights.

For those who cycle it is a 'must have' accessory. They are available from most good independent bike shops. You can buy on line or better still, if you cycle to work, inform your employer about Pedalite's corporate scheme.

Your employer can sign up for it, giving the employees a discount on purchase of these very nifty pedals. Have a look at the short video clip below and see the difference in visibility as this picture does not do it justice.

You can now receive 10% discount on all orders of pedalite products purchased through WWW.PEDALITE.COM. Get a discount by simply entering ECOLIST in the promotional code field when buying the product

Be Safe!
